

Hi Beauties! I pray you all are well and safe!

As a professional Makeup Artist, proper hygiene, sanitation and maintaining a healthy and safe environment for my clients is and has always been a top priority.

That said, due to Covid-19 we are taking extra measures to go beyond normal protocol to ensure the health and safety of all. For that reason and to comply with the recommendation shut down all non-essential businesses. Carolina Glam Makeup Studio and Glam Bar has closed it's doors and will remain closed for the foreseeable future due to the Coronavirus crisis. All current appointments have been cancelled and rescheduled.

While the studio is closed I am taking extra measures to clean and disinfect the studio and all tools, makeup brushes and products are thoroughly sanitized and disinfected for your continued safety. Additionally, I am working on new summer offers and packages to celebrate the re-opening as soon as I can.

In the meantime, I will definitely continue to keep in touch with you through my social media platforms to let you know when we can see you for your next appointment. Feel free to reach out to purchase gift certificates to say Happy Mothers' Day or just to give a gift for a future service to share with someone during this time, that they can redeem as soon as it is safe to do so!

I am closely monitoring the COVID 19 situation and will take all necessary action to keep my clients safe during this heightened period related to Coronavirus (COVID-19), I want to be as proactive as possible to ensure the health and wellness of my guests. This is a fluid situation that we continue to monitor for new updates as well as operating and protocol guidelines to contain the potential spread. At Carolina Glam, sanitation and safety have always been paramount. Our sanitation and hygiene procedures are based on best practices, licensure and current CDC guidelines for preventing the spread of communicable diseases.

- Team members wash their hands and use hand sanitizer between all clients.
- Tools and equipment are sanitized and/or disposed of after use.
- Linens and towels are laundered in commercial-grade machines using hot water and fragrance-free detergents.
- Sheets are commercially cleaned after each use.
- All high-touch areas are wiped with disinfectant wipes throughout the day.

- All locations are cleaned and disinfected nightly using hospital-grade disinfectants and during this period we have increased our cleaning protocols to thoroughly disinfect all high-touch areas nightly.

Best Practices for All to Stay Healthy(from the CDC)

- Stay home when you are sick, especially with flu-like symptoms.
- Wash your hands frequently with warm, soapy water for at least 20 seconds.
- Regularly apply hand sanitizer.
- Cover your mouth with tissues when you sneeze, and discard used tissues in the trash.
- Avoid touching your face (eyes, nose and mouth).
- Avoid hugging, kissing and handshakes whenever possible.
- Clean frequently touched surfaces.

I will keep in touch to let you know when we will be reopening- keep an eye out for the updates! Looking forward to welcoming you back soon!
